

Snug

And cosy is the household that avails itself of the opportunity to get a thorough outfitting for winter, at Fair Bros. & Co's., whose prices are

Under

the average. In fact, prices have to be down, because the trade is a forced one nowadays among jobbers. Take

Blankets

for example. They are just about as economical a purchase as can be made in

These

days of competition and energy. No housewife should fail to secure some of Fair Bros. & Co's. bargains against the season of

CANDIDATES' SPEAKING

FRIENDLY BOUT AT THE COURT HOUSE HERE MONDAY.

They Declare Their Politics and Positions and Get Warm—up to Active Work—Pirtle's Puerility.

Bro. Bean a Candidate.

The first of what promises to be an interesting series of public speaking by the candidates took place at the court house here Monday afternoon.

Mr. T. J. Smith called the meeting to order and introduced Mr. Z. H. Shultz, who made the most pleasant talk to the voters present, saying that he had spent his life in the county and his manhood in the school work. He made a pleasant reference to his opportunities for knowing the wants of the county in an educational way, and promised if elected to give the schools such care and attention as the importance of the work demands.

His reference to political matters was brief. He only stated that the people of his locality knew him and knew his political convictions, which he stood always ready to defend should they be assailed. The impression Mr. Shultz made was a most excellent one. He is a manly, candid, honorable and capable young man, and we believe the people of the county will vote for him.

Mr. T. J. Smith then made a brief statement of his candidacy and his position on matters relating to our State Government. He said his training had been obtained in positions which demanded business qualities and that he thought the next Legislature ought to be distinctly a business body and as a member of that body he would stand ready to study the demands of his people and give his support to such measures as he deemed most beneficial to the people of the State.

He was followed by Mr. F. W. Pirtle, who produced an array of newspapers of various dates and characters, and after saying again that he had not been a candidate before, notwithstanding his name was upon every poll book in the county in 1891, he began a defense of his political organization and abused the Herald for having told the truth about Mr. Wesley Crowe, the former member, whom his party in this county furnished the State at a cost of \$2,750 for three months nominal service. Mr. Pirtle then began a somewhat rambling discussion of national politics and abused alike the Republican and Democratic parties and advocated the free and unlimited coinage of silver.

He was followed by Mr. Smith, who in a brief reply told Mr. Pirtle that he (Pirtle) had mistaken his job and ought to be running for Congress, as it is more than probable the next Legislature of Kentucky will have a small hand in determining the questions of silver coinage or Government purchase of railroads.

Rev. G. J. Bean then announced his candidacy for the State Senate upon the Third party platform, or rather he stated that he had been nominated by the People's party and would make the race upon a platform which he briefly outlined as composed of no politics. He said he had always voted for whom he conceived to be the best man offering for office without regard to his politics. He said he had some leisure now and thought he would enjoy making the race and was a candidate and wanted the people to vote for him. He spoke in highest terms of Senator Lindsay, but said if in the Senate he would vote for the best man for United States Senator. Brother Bean's political position is an unique one and his speech was enjoyed by his audience.

Neither Mr. Pittsburgh nor Esquire Awtry was present. The meeting was a most good-humored one and gave promise of some interesting sparring to follow. It will pay the people of the various neighborhoods to go out and hear the speakers.

Pay for School Teachers.
Treasurer Hale has made out more than \$800,000 worth of checks, payable at the different banks in which he has the State funds deposited, and payable to the County Superintendents of Schools. The latter will, out of these checks, pay the teachers in the respective counties the amounts due them for salary, on Saturday, Oct. 14th. It will require \$800,000 to pay all the Superintendents of the State, but the reason checks have not been made out for all, is because a number of Superintendents have not properly qualified with bond, etc.

The best \$1 Shoe on earth at Schapmire's.

Important to Tax-payers.
The following from the Frankfort correspondent of the Courier-Journal is of very great interest to every citizen who pays taxes. It should be read and acted upon at once, as six per cent is a big penalty. The correspondent says: "One of the many new laws that went into effect October 1 is of especial interest to tax-payers and Sheriffs, especially this year, and is probably less generally understood than any of them. The new chapter concerning the fees of Sheriffs is referred to. Under this new law tax-payers become liable to a penalty never incurred before. It is a penalty, too, that can not be escaped, even through the kind offices of the old-fashioned, accommodating Sheriffs. Everybody is familiar with how in former times Sheriffs were charged by the State with all the taxes due from their respective counties. They were required to pay in these taxes to the State at a specified time. So much money was due from them, whether they collected it from the tax-payers or

not, and many an accommodating Sheriff, anxious to please tax-payers and secure his re-election for another term, did not press them, but advanced the money himself. And many of them left office bankrupt for this very reason. The new Revenue Bill and the one just referred to, together make this impossible. Every Sheriff is required to keep an account of those who pay their taxes and when. On the first day of November all of those who have not paid their taxes for 1893 will have a penalty of 6 per cent added thereto. It is not an optional matter with the Sheriffs. They are compelled to assess it on all tax accounts due when the 1st arrives. Six per cent, is no small penalty. It will amount to \$6 for every hundred dollars of taxes due after business hours October 31. The year has been one of exceeding scarcity of ready money. Many of the prompt tax-payers have put off and continued to put off paying their annual contributions to the expenses of the State Government. But it will not be "business" for them to do so later than the 31st, and as a consequence the State Treasurer hopes for a big increase in the funds on hand during the last days of the present month."

Some of the shallow and callow Republican organs throughout the country keep up the campaign pre tense that the business depression is due to the tariff and other taxes just as high as the Republicans left them? Is not the Treasury still suffering from the Republican deficiency? Is not the gold reserve just about as "Calico Charlie" left it? Are not compulsory silver purchases still going on under a law passed by exclusively Republican votes and signed by a Republican President? What has changed except the incumbency of the higher offices and the purpose of the Government in relation to the wrongs and the evils which the people condemn? Too many partisan journals are conducted on the theory that the people are fools. —New York World.

Sleeps on the Floor.

"I have never slept in a bed since the war." This remark was made yesterday by A. M. Warner of Boston.

"The reason," he continued, "is not because I am a vegetarian or a crank. I simply am unable to go to sleep in a bed, and for 20 years I have not tried. During the war I was in service four years and in all that time never slept in a bed. I had no home and consequently had no furniture. The habit of rolling in a blanket and sleeping good so fixed with me that when I got back from the war and settled down a bed was a nuisance. I have rolled and tossed and tried hard to sleep night after night, but was not able to keep my eyes closed until I sought the floor. For 10 years I tried to reconcile myself to a bed, but it was no use. Finally I gave it up, and now in my home in Boston I sleep in a room in which there is no bed. I simply roll myself in a blanket or two, according to the temperature, and I sleep soundly. My health is good, and I am sure that I shall live just as long as if I slept on a down mattress."—Chicago Tribune.

Phenomena Allied to Lightning.

Subterranean thunders have occasionally been heard preparatory to an aerial eruption. The sound has been of a volume of water, as if volcanoes were exploding below. The ground has burst open, and floods of water have gushed forth from the sides of hills or from fissures in the rocks. Taking another class of effects, cures have been performed by lightning—gouty men have been enabled to walk freely, epileptic persons have been healed, amputees have been removed and rheumatism dispelled by a flash. But one dare not look too closely into the subject of medical electricity nor venture to recommend any one to tempt lightning in the hope of experiencing its curative effects.—Chambers Journal.

Use For a Dead Rattlesnake.

Rattlesnakes are of value to the mountain doctors of Pennsylvania for several reasons. The oil obtained by draining the reptile after skinning is used to cure deafness. The rattle suspended from a string and worn by a baby will have the power of preventing the wearer from having convulsions during dentition. The tongue of the snake when worn in the glove will have the power of compelling any girl who grasps the gloved hand to love the one so greeted, even should she ordinarily be indifferent to his attentions.—Science.
